

Keerthana R

Aspiring Data Analyst | Python · SQL · Power BI · Data Visualization

✉ Contact •  LinkedIn •  Github

PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in data cleaning, dashboard development, and business intelligence reporting. Skilled in Python (Pandas, NumPy, Seaborn), SQL, Microsoft Excel, and Power BI. I enjoy transforming raw data into meaningful insights that help in better decision-making. Through projects and practical experience, I have built a strong foundation in analyzing data, identifying patterns, and presenting clear, actionable results in collaborative environments.

WORK EXPERIENCE

Data Visualization Intern *Jan 2026 – Mar 2026*
Cognifyz Technologies, Nagpur

- Engineered interactive dashboards using Python (Matplotlib, Seaborn) and Power BI, reducing manual reporting time by approximately 40%.
- Analyzed and visualized datasets of 10,000+ rows, identifying key performance trends communicated to cross-functional stakeholders.
- Automated repetitive data extraction tasks using Python scripts, improving data processing efficiency by 30%.

Data Analytics Job Simulation *Nov 2025*
Deloitte via Forage

- Executed end-to-end analytics tasks simulating real-world business consulting scenarios for a Fortune 500 environment.
- Synthesized complex business datasets and delivered data-backed recommendations, improving simulated KPI outcomes by 20%.
- Collaborated with virtual team to present findings using structured data storytelling techniques.

PROJECTS

Interactive Chocolate Sales Dashboard *2026*
Power BI · Excel · DAX · Data Visualization

- Developed a Power BI dashboard analyzing 5,000+ sales records across 8 regions and 15 product categories.
- Designed 10+ DAX calculated measures to track revenue KPIs, resulting in clearer performance visibility for decision-makers.
- Implemented drill-through and dynamic filtering features, reducing time-to-insight for stakeholders by an estimated 50%.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science
Cauvery Institute of Technology, Mandya
2023 – 2027

Pre-University Certificate (PCMB — 12th Grade) *2023*
St Anne's Girls PU College, Maddur
Score: **84%**

Secondary School Certificate (SSLC — 10th Grade) *2021*
St Anne's School, Maddur
Score: **96%** | Distinction

HARD SKILLS

Programming: Python, SQL, DAX

Libraries: Pandas, NumPy, Matplotlib, Seaborn

BI & Visualization: Power BI, Microsoft Excel (Advanced), Google Sheets

Data Skills: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, KPI Reporting, Dashboard Development

Database: SQL Querying, Joins, Subqueries, Aggregations

Other: Microsoft Office Suite, Data Storytelling

SOFT SKILLS

Analytical Thinking · Problem Solving

Effective Communication · Team Collaboration

Critical Thinking · Attention to Detail

Time Management · Adaptability

CERTIFICATIONS

SQL (Advanced) Certification *2026*
HackerRank

Foundations: Data, Data, Everywhere *2026*
Google Data Analytics · Coursera

Data Analyst Skill Certification *2026*
OneRoadmap

Power BI for Beginners *2026*
Microsoft · Simplilearn SkillUp

Data Science Certification *2026*
Simplilearn SkillUp

Building Data Analyst AI Agent *2025*
Analytics Vidhya

KEY STRENGTHS

Data Storytelling — Translate complex analytical findings into clear, business-ready narratives.

Data Quality — Proficient in identifying anomalies, handling missing values, and ensuring dataset integrity.

Business Acumen — Apply data-driven thinking to solve real-world operational and strategic challenges.

LANGUAGES

Kannada — Fluent **English** — Professional
Hindi — Conversational
